- Central game mechanic
- Make a plan

Plan

The screenshot displays a Trello board for a game development project titled "Bees - LudumDare59". The board is organized into five main columns representing different stages of the development process:

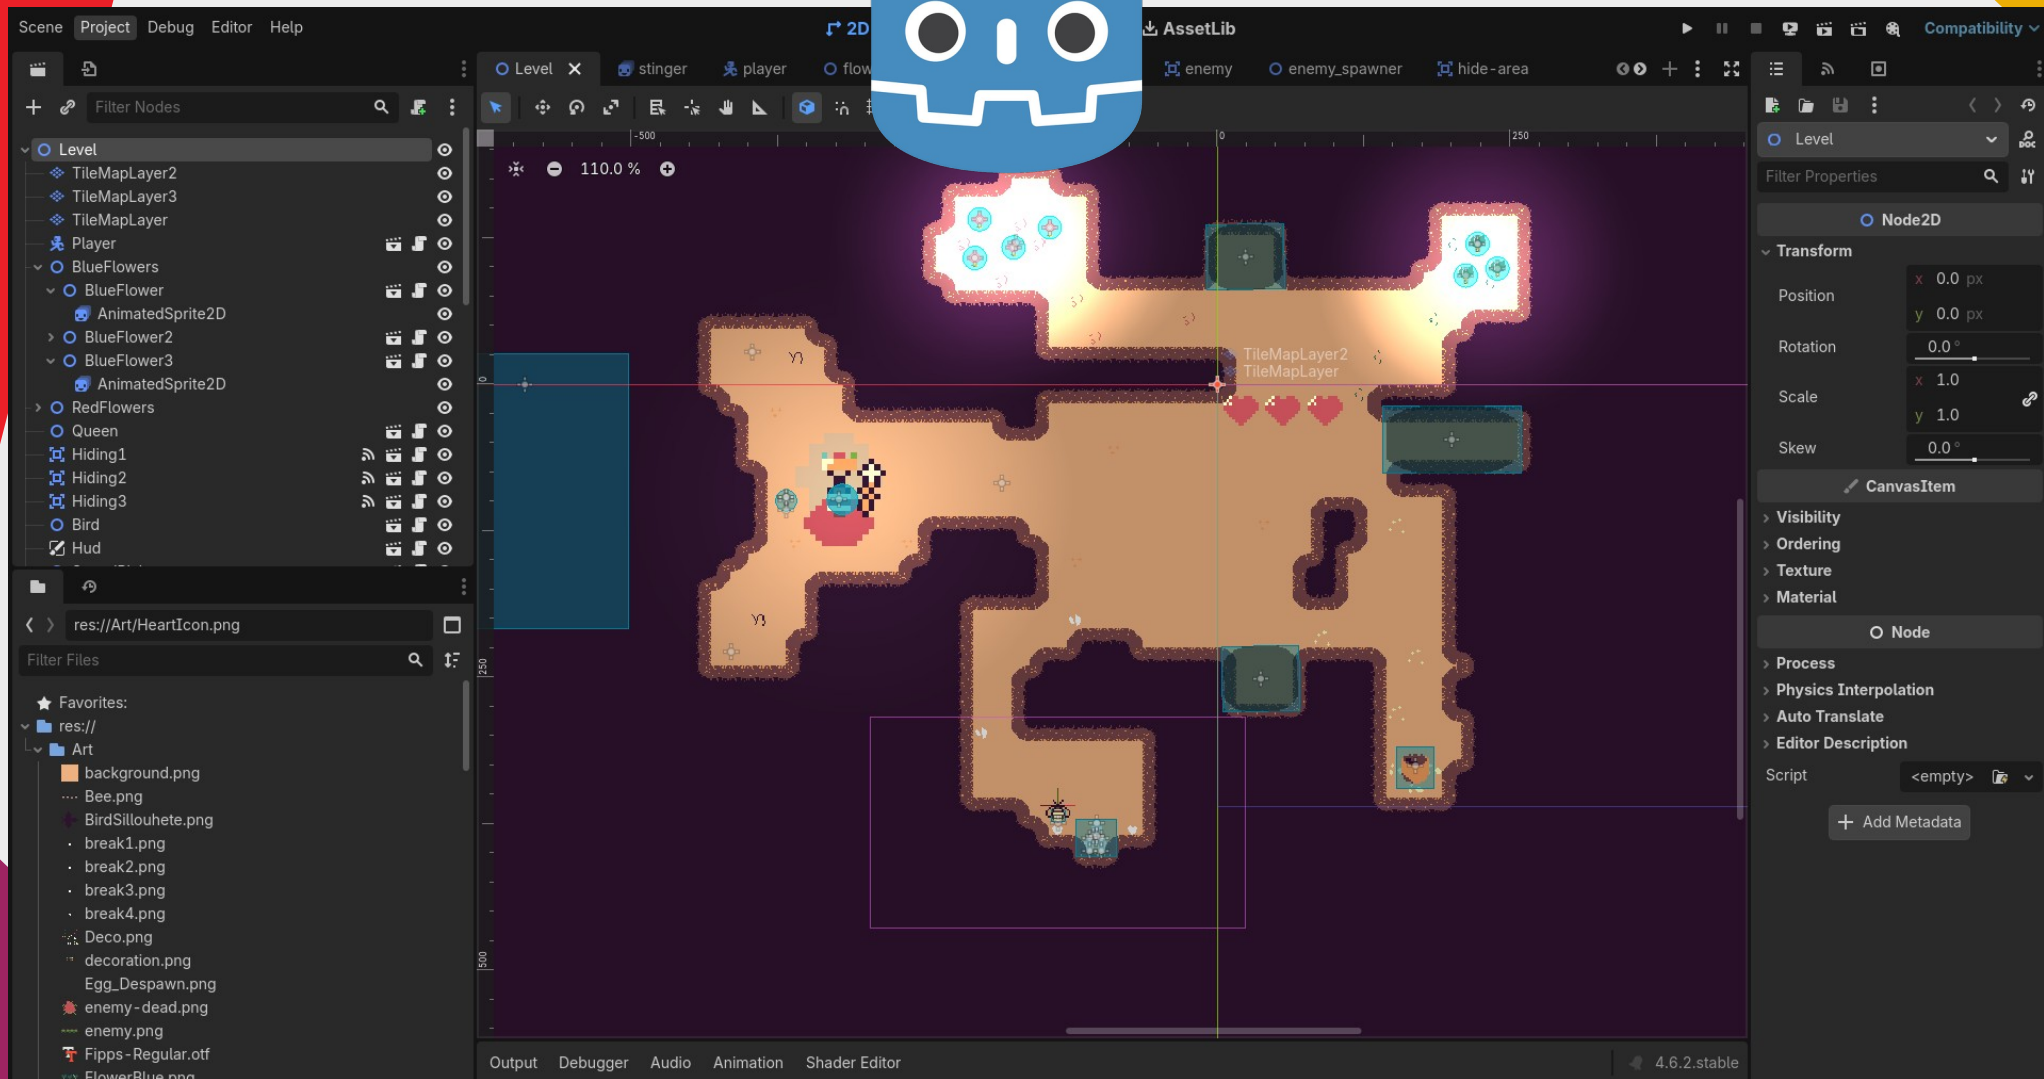

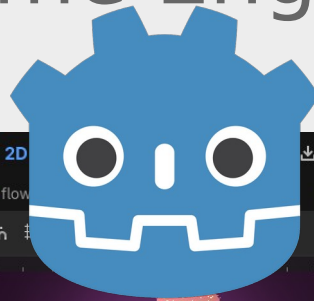

- Must Have:** Contains cards for "Queen Bee-atrice", "Music", "Shooting", "Hiding Mechanic", "Level design", "Game Over", "Enemies", "Win State", and "Buzzing".
- Nice To Have:** Contains cards for "Settings", "Upgrades", "Decoration Floor", "Background Art", "Lights for example dimming", "Bird shadow", "Bird Sound", and "Prettier Hunger Meter".
- Won't have:** Contains cards for "Bee animations" and "Compeding Bees".
- Bugs:** Contains a card for "Can dropoff egg even after timer expired".
- Done:** Contains cards for "Flower/Pollen", "Interaction", "Movement", and "Signal Mechanic".

Each column has a "+ Eine Karte hinzufügen" (Add a card) button at the bottom. The board also features a top navigation bar with icons for search, notifications, and settings, and a bottom navigation bar with options like "Posteingang", "Planer", "Board", and "Boards wechseln".

Implementation

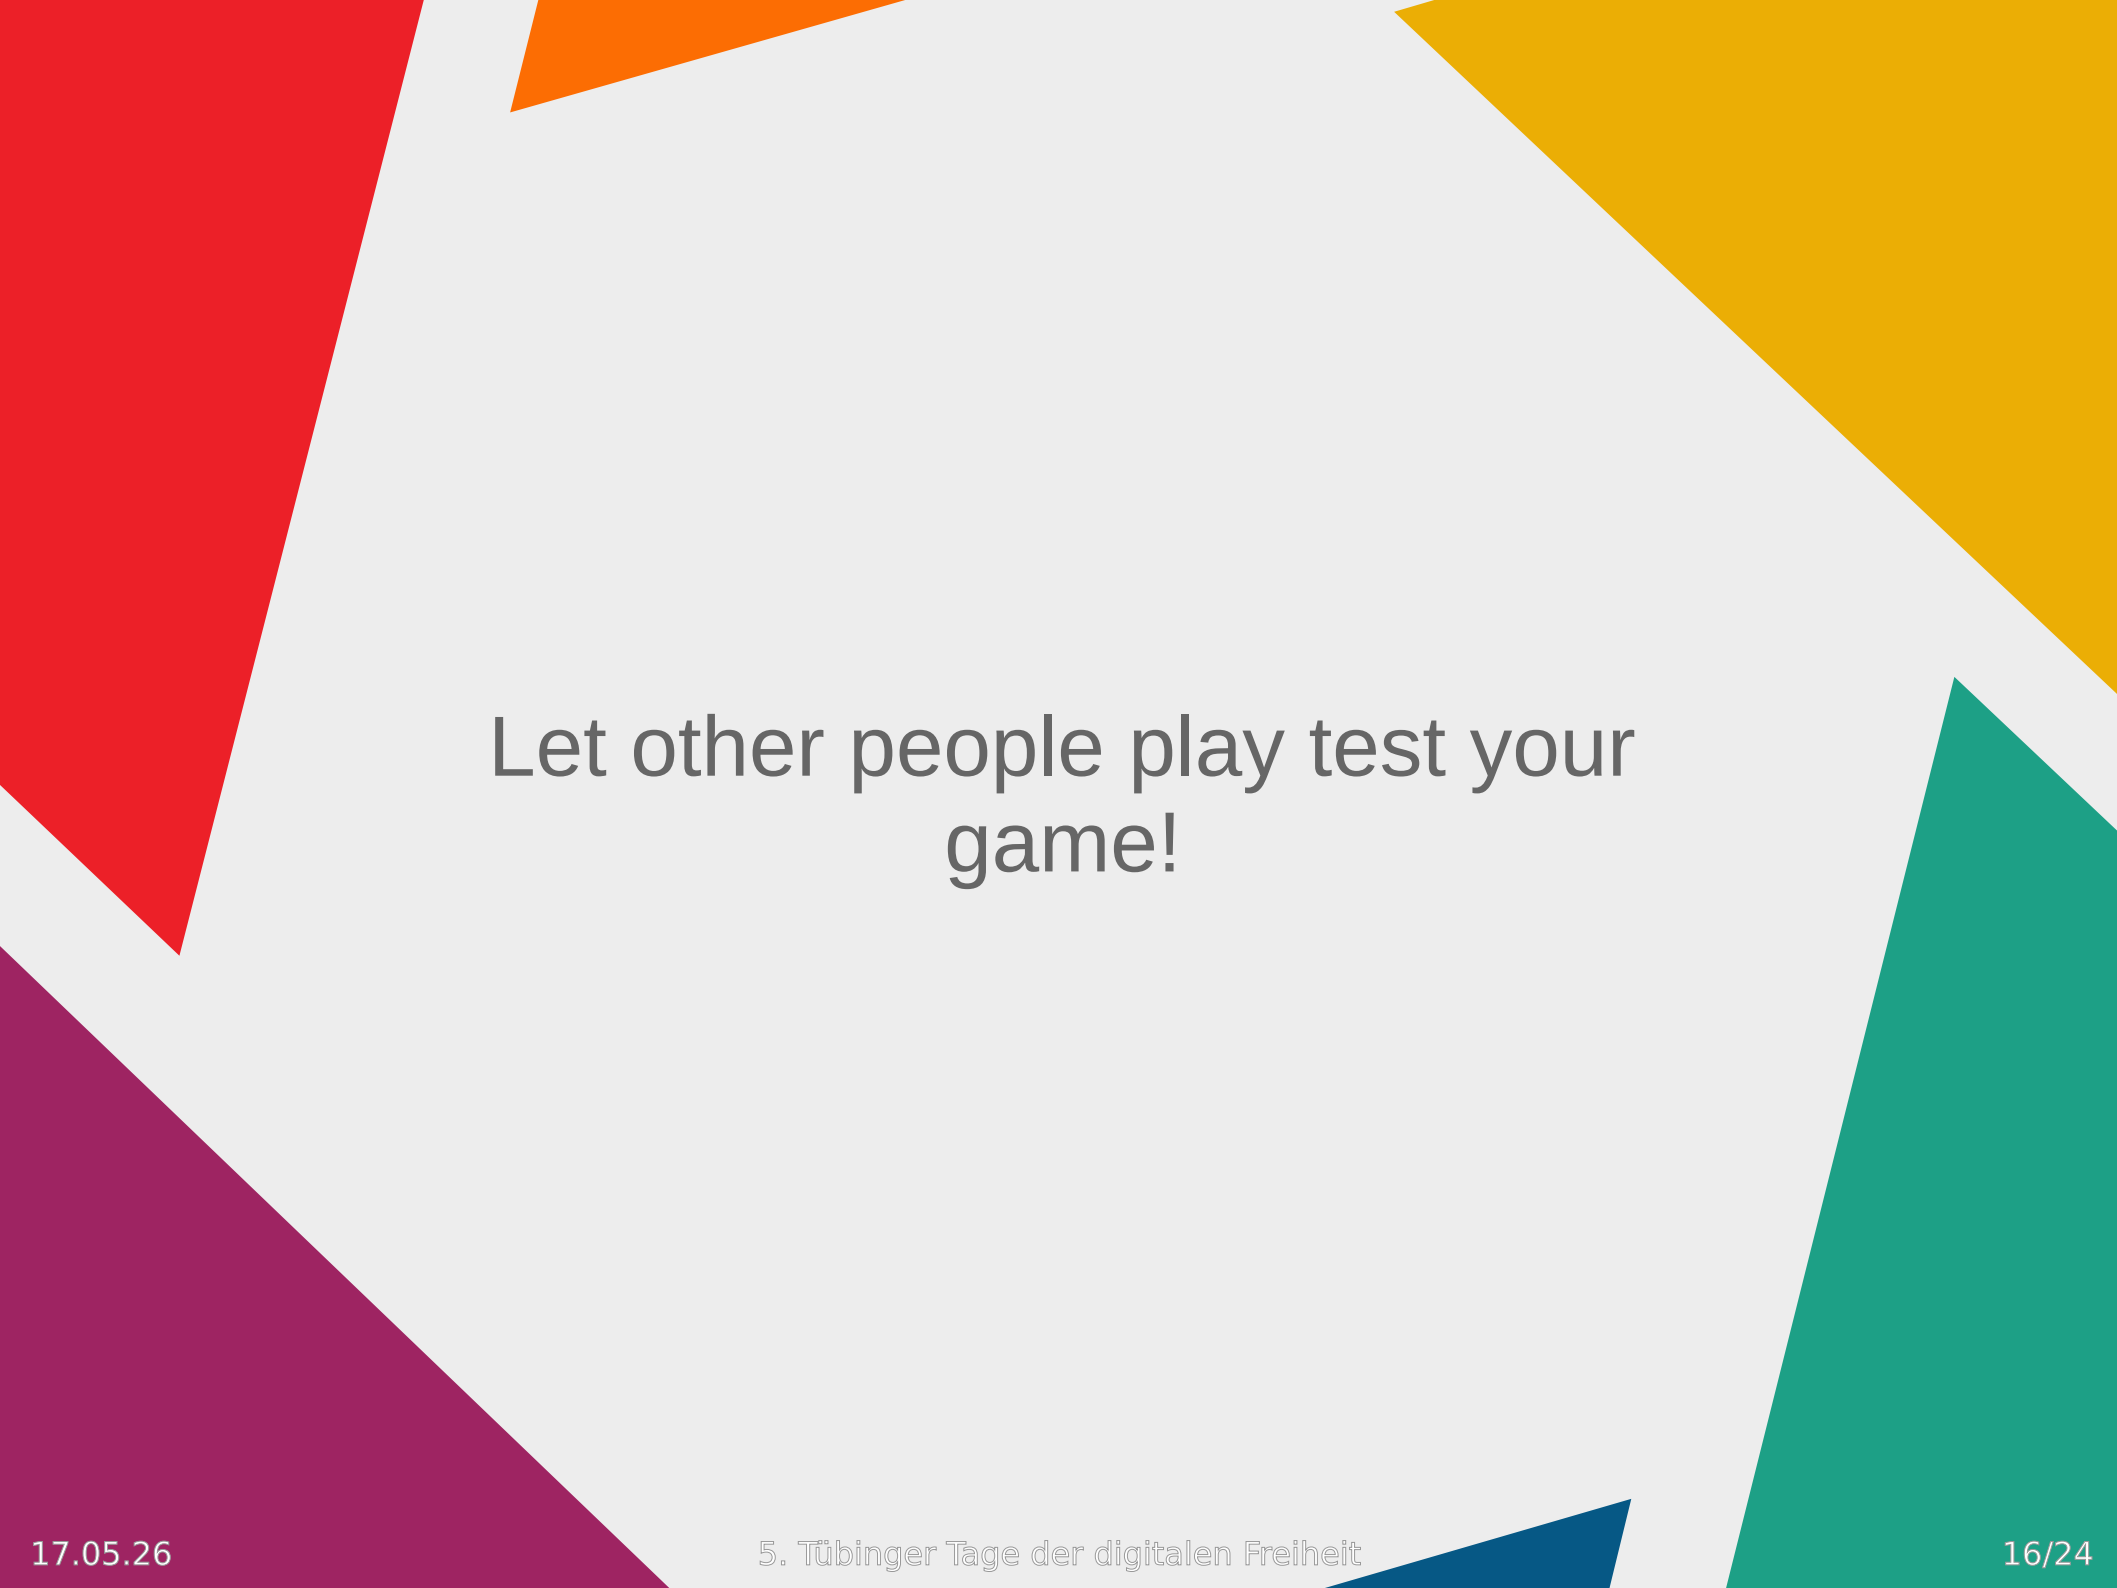

- Does not need to be pretty

Implementation

Implementation

- Does not need to be pretty
- Don't stress over clean architecture
- People will give your game a limited time
 - One central mechanic
 - Easier than you think
- Everything will take slightly longer than you think

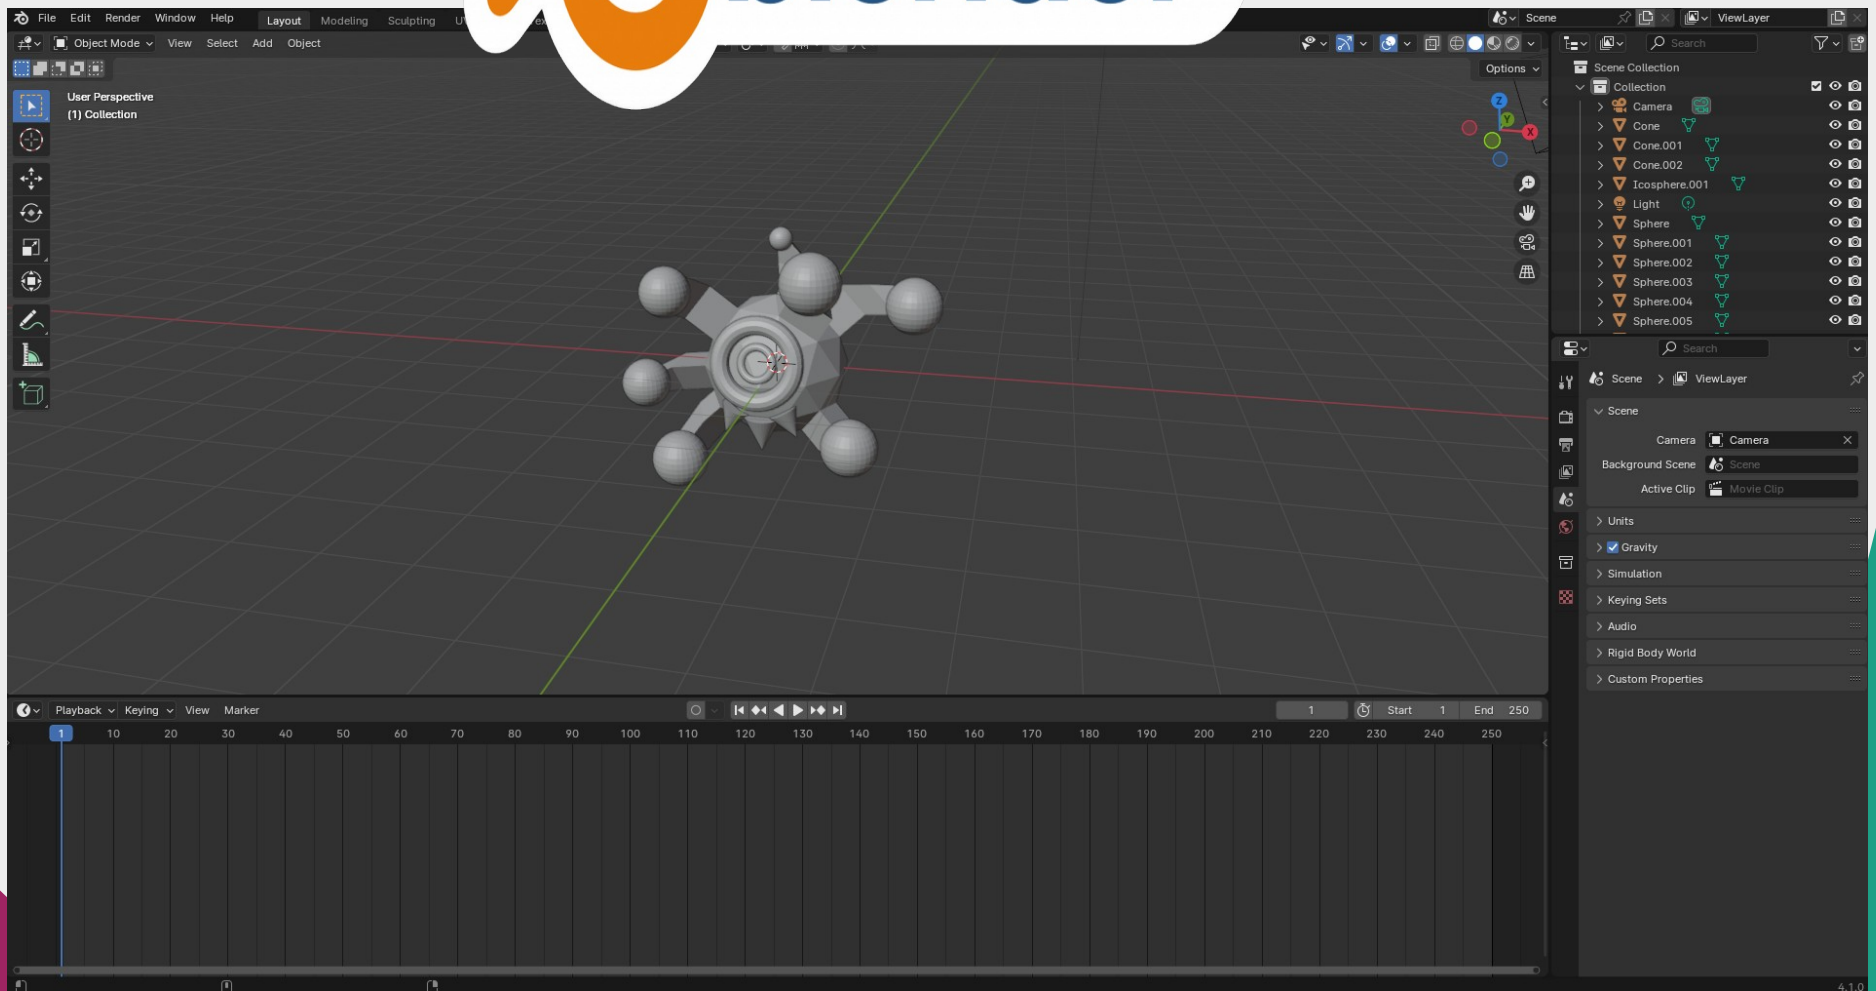

Let other people play test your
game!

Polish

- Good game vs great game
- Art

From Placeholder to Art

- More oomph!
 - Flashing
 - Camera shake

Submitting your game

- Submission hour
- Play in browser
- Test early!

Submitting your game

The screenshot shows a game submission page for 'Ludum Dare 59 - Signal'. The page layout includes a top navigation bar with links like 'Dashboard', 'Manage', 'Edit game', 'Analytics', 'Widget', and 'Edit theme'. A 'PUBISHED' button is visible. On the right, there's a user profile for 'Domenixius' with options to 'View all by Domenixius', 'Add To Collection', and 'Related games'. The main content area features a large 'Run game' button, a 'Support This Game' button, and a detailed description of the game. The description includes a welcome message, game objectives, controls, and three screenshots of the game's pixel art style.

Support This Game

Ludum Dare 59 - Signal

Welcome little hatchling, to the Hive of Queen Bee-Atrice!

Now that you are a part of the hive you have to help support the queen until she has laid 3 eggs and you have returned them safely to the nest.

Listen to the various signals and react accordingly.

Feed the queen her favorite nectar. But beware of what she has a taste for at the moment. Is she feeling red or rather blue?

Stop the bugs from getting too close to the queen and maybe when you listen for the right sound you can snack on some honey to make yourself faster!

And above all else hide when you hear the songbirds call!

Controls

WASD/Arrows: Move

After the submission

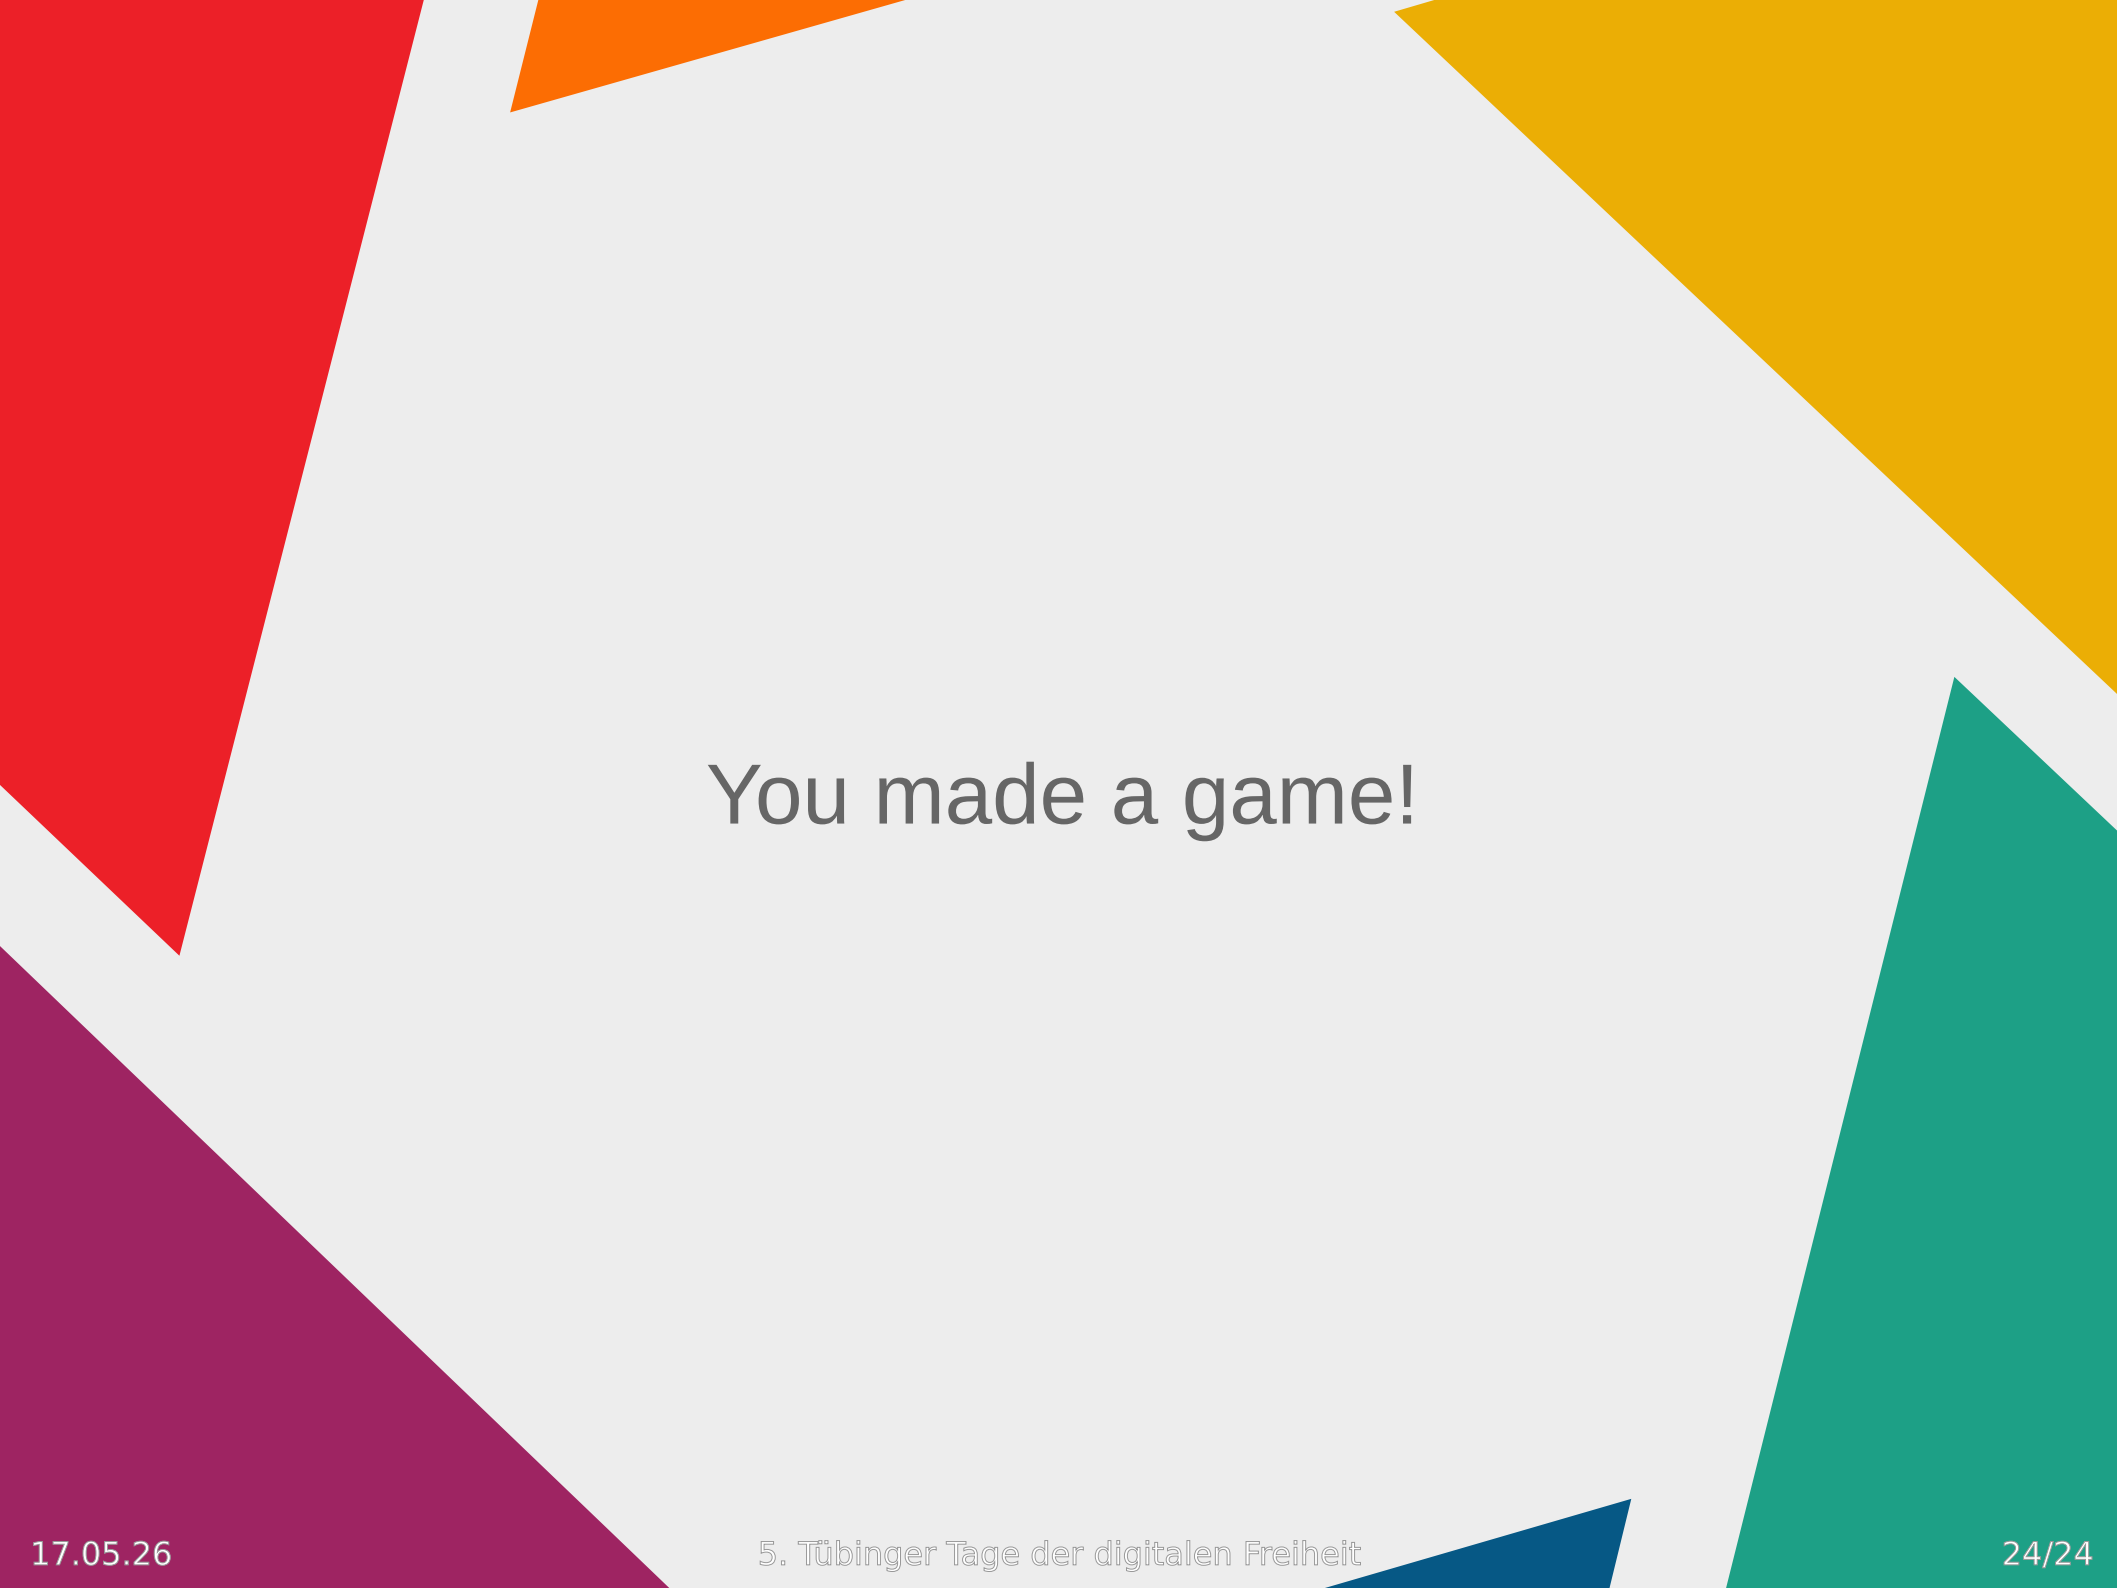

- Sleep
- Play games!
 - Rate them
 - Give constructive feedback

Results

Final results

Overall:	238th (3.103 average from 31 ratings)
Fun:	221st (2.931 average from 31 ratings)
Innovation:	240th (2.897 average from 31 ratings)
Theme:	235th (3.017 average from 31 ratings)
Graphics:	171st (3.362 average from 31 ratings)
Audio:	99th (3.5 average from 31 ratings)
Humor:	46th (3.5 average from 30 ratings)
Mood:	185th (3.259 average from 31 ratings)

When a line is **N/A**, it means there weren't enough ratings for a reliable score. Don't forget to play and rate other people's games during events to prioritize your game.

You made a game!
